Books by Louis Leithold (Author of The Calculus 7)

Leithold's The Calculus is by far the best textbook on the subject. It shows plenty of examples, it gives proofs for everything that is discussed. I've took calculus in the early 80's, and when ever I need to review some calculus, there is nothing that comes close to Leithold for explaining and illustrating Calculus to the serious student.

Calculus with Analytic Geometry, The: Louis Leithold ...

However, the standout text in my collection is "The Calculus 7" by Louis Leithold and I am fortunate enough to have the instruct-ors solutions manual. Leithold has written the best standard text at this level period. The only caveat is that this is not a text for unmotivated students who are not well prepared in Precalculus or not highly motivated.
