The issue of smoking is particularly charged because Hans Eysenck received money from the tobacco industry between 1977 and 1989. Eysenck himself obtained 800 000 Pounds, his institute another two million. Grossarth-Maticek tells us that his own research was only supported by the tobacco industry when all the data had already been gathered.

The Legacy of a Scandal - ruprecht

A self-administered survey on cigarette smoking and the Revised NEO Personality Inventory. Findings Current-smokers scored higher than never-smokers on Neuroticism and lower on Agreeableness and Conscientiousness; former-smokers scored intermediate on these higher-order dimensions.
