Instant Traffic Analysis with Tshark How-to - Instant ...

Like any other program written in C, Tshark is susceptible to vulnerabilities. Sending certain type of malformed traffic or opening a malicious pcap file could be enough to get a shell on a vulnerable computer. See, for example, CVE-2011-1591 for Wireshark versions before 1.4.4, which is susceptible to a buffer overflow in the DECT dissector. This vulnerability could be exploited to execute certain payload (for example, a reverse shell) on a computer running Wireshark by sending a single ...
